

ACPL Roller Coverings and Parts

**ACPL ROLLERS
& PARTS PTY LTD**

specialising in Polyurethane & Rubber

1953 Over 50 years of Service - Over 50 years of Quality

Since 1953 our customers have been our most important asset, along with our own staff and suppliers.

Our philosophy since the company's inception has always been to conform to the needs of you, our customer.

To achieve this we have talented, experienced people and advanced facilities with the very latest polyurethane dispensing machines being used to provide ultra consistent roller coverings and moulded parts.

By working closely with us, you can benefit from our experience, enthusiasm and ingenuity to achieve a result that is appropriate to your quality, cost and delivery expectations.

The combination of all our resources enables us to offer to you the most important skill of all. The ability to start & finish your work on time - every time!

Technology

As Australia's leading polyurethane roller covering and custom moulding specialists, our investment program reflects your desire for us to constantly update our equipment & facilities to provide you with the best value for money proposition. To ensure your formulation is mixed accurately and consistently every time the latest in technology is employed, wherever possible.

Quality

Your products will match your quality expectations as a result of our uncompromising commitment to quality and our quality driven systems, thereby eliminating costs associated with poor quality products.

Our quality driven systems provide the vehicle to deliver service levels which have now become the benchmark for our industry.

Service

Our service is the end of the partnership which we establish with our customers and suppliers. The quality and professionalism we bring to every product we supply is only matched by our commitment to ensure that they are delivered on time, every time and as economically as possible.

For your most urgent requirements ask for our express service. Free delivery to Melbourne metro customers. For interstate customers reduce your costs by asking us to pick-up & deliver to your interstate courier's depot.
